WOULD CALL SOLONS BEFORE FINAL STEP TOWARD ACTUAL WAR

President Wilson Makes It Clear To Balking Congressmen That No Extra Session Will Be Necessary Unless Extraordinary Crisis Arrives, Leading to Declaration of War.

REPUBLICANS PLAN ACTION ON THREE IMPORTANT BILLS BEFORE ADJOURNMENT

By Associated Press Dispatch.
Washington, March 3. — President Wilson has no intention of taking action that would bring war with Germany, unless Congress is summoned to an extra session.

This was communicated to Senate leaders today by representatives of the President, who takes the position that if no extraordinary crisis arises it will not be necessary to call for an extra session before late in the spring, and then only to pass any appropriation bills which may fall at the present session.

The President today continued efforts to persuade Republican senators to assist in the passage of needed appropriation bills during the present session.

Senators were told by representatives of the President that their argument that Congress should remain in session because of the German situation was not logical because he naturally would take no action leading to a declaration of war without the cooperation of Congress.

By Associated Press Dispatch.

Washington, March 3.—The legislative situation in Congress today, according to the most optimistic estimates, indicates that Senate Republicans have determined to limit activities for the remainder of the session to the following:

Final passage of the naval appropriation bill.

Approval of the House resolution for \$150,000,000 naval bond issue.

Enactment of armed neutrality bill. Republican leaders, however, were without any assurances from Senator LaFollette, who may oppose it.

Republicans were determined, according to Democratic senators who have been struggling with them for 24 hours for a reconsideration to prevent final passage of the following bills:

The army bill.

Sundry civil appropriation bill and the general deficiency bill.

Military academy bill.

Bill to extend authority of the shipping board and permit the Government to take merchant ships owned or building in the United States in time of threatened war.

THE WEATHER

(Associated Press Dispatch)
Washington, March 3. — Weather predictions for the week: Fair during greater part of week; cold first part of week, followed by much warmer after Tuesday.

MEXICAN, GERMAN AND JAPANESE STATESMEN NAMED IN STORY OF ANTI-AMERICAN PLOT

In the pictures reproduced herewith are shown four of the men whose names were mentioned prominently in the report that Germany, in planning unrestricted submarine warfare and counting its consequences, proposed an alliance with Mexico and Japan to make war on the United States.

States if this country should not remain neutral. They are: 1. Baron von Schoen formerly secretary of the German embassy in Washington, transferred to Mexico without explanation; 2. Alfred Zimmermann, German minister for foreign affairs who sent the note to the German minister in Mexico; 3. Almaro Sato, Japanese ambassador to the United States, whose office declared the proposal "absolutely impossible;" 4. Lais Cabrera, Carranza's minister of finance, known to be anti-American and said to have knowledge of the proposed arrangement.

POWER OF VILLA IS SMASHED

Mexican Rebel Has Withdrawn to Secret Place, Taking 300 Picked Men, Is Claim.

By Associated Press Dispatch.

El Paso, Texas, March 3.—From a wounded Villa soldier, who is here today for medical treatment, Government agents claim to have learned of Francisco Villa's plans to reduce his force to 300 picked men, abandon his campaign against Chihuahua City, and disappear for three months on a secret mission in the interest of his provisional government, of which Miguel Diaz Lombardo is to be provisional president.

According to these agents, the soldier told of Villa's announcement at Santa Rosalia, when he evacuated that town before General Murguia's successful drive.

Villa made a speech to his soldiers, telling them that he was taking 300 picked men, and ordered the remainder of his command of 1,500 to break into small bands and maintain themselves as bandits until his return.

VESSEL NAMES WILL BE SECRET

(Associated Press Cable)

Paris, March 3.—The Admiralty has decided not to publish daily the names of torpedoed vessels.

The announcement says that this publication has caused "grave inconvenience," and that a weekly statement will be issued instead, giving the number of vessels of different classes which have been sunk.

BOND ISSUE IS REPORTED BY COMMITTEE

By Associated Press Dispatch.

Washington, March 3.—After a heated executive session, in which Secretary McAdoo participated, the House Ways and Means Committee today reported favorably the resolution to authorize a \$150,000,000 bond issue for hurrying naval construction.

Unlimited power for the president to spend the money as he will, either for the work already authorized or for new projects was denied by the committee despite vigorous efforts of Democrats to obtain it.

Republicans contended that in case of national emergency Congress probably would be in session, and it would be possible to quickly broaden the President's powers. They disclaimed any desire to hinder the president.

PRESS OF GERMANY MUZZLED

(Associated Press Cable)

London, March 3. — The German press has been ordered not to publish a word regarding the American-Mexican revelations until further notice, according to an Amsterdam dispatch to the Exchange Telegraph Co.

The dispatch says that only a few circles are aware of the intrigue, and that it is considered possible the result of the affair will be the resignation of Foreign Secretary Zimmermann and the ending of Count von Bernstorff's career as a diplomat.

AGREE UPON SUPPLY BILL

By Associated Press Dispatch.

Washington, March 3. — Despite threats of Republican leaders to hold up all pending appropriation bills, the Senate early today agreed to the conference reports on the \$40,000 legislative, judicial and executive supply measure, which carries with it the salary increases for government employees. The bill now goes to the President for approval.

GERMAN PLOT TRUE IS DECLARATION OF GERMANS IN BERLIN

Admission Made By Semi-Official News Agency Which Seeks Excuse.

NECESSITY OF SUCH STEP IS DECLARED

Was to Have Been Sprung if America Declared War on Germany.

(Associated Press Cable)

London, March 3. — Foreign Secretary Zimmermann's instructions to the German Minister to Mexico, as published in the United States, are admitted in Berlin to have been correctly quoted, according to a Reuters dispatch from the German capital by way of Amsterdam.

(Associated Press Cable)

London, March 3. — The dispatch quotes the following telegram, received in Amsterdam from Berlin on Friday and which was apparently sent by the Wolff Bureau, the semi-official German news agency.

"The American press contains reports about instructions from the Minister of Foreign Affairs to the German Minister in Mexico City in the event that Germany, after the proclamation of unrestricted warfare, failed to keep the United States neutral.

"These reports were based on the following facts:

"After the decision had been taken to begin unrestricted submarine warfare on February 1, we had to reckon, in view of the previous attitude of the United States Government, with the possibility of conflict with the United States.

"That this calculation was right is proved by the fact, that the American Government severed diplomatic relations with Germany soon after the proclamation of a barred zone, and asked other neutrals to follow her example.

"Anticipating these possibilities, it was not only the right but also the duty of our Government to take precautions in time, in order to balance, if possible, the admission to our foes of a new enemy.

"The German Minister at Mexico City, therefore, was instructed in the middle of January that in the event of the United States declaring war, he should offer to the Mexican Government an alliance and arrange further details.

"These instructions, by the way, expressly directed the Minister to make no advance to the Mexican Government unless he knew for a certainty that America was going to declare war."

TOLEDO WANTS REJECTED BOUT

By Associated Press Dispatch.

Toledo, March 3. — Following an announcement yesterday that Governor Whitman had forbidden the scheduled

bout between Les Darcy of Australia and Jack Dillon of Indianapolis the Toledo Athletic Association last night sent out a telegram to Dillon's manager offering \$40,000 which if accepted will bring the match here late this month. The bout would be of 12 rounds.

WILSON SIGNS BONE DRY BILL

By Associated Press Dispatch.

WASHINGTON, MARCH 3.—PRESIDENT WILSON TODAY SIGNED THE POSTOFFICE APPROPRIATION BILL CONTAINING THE "BONE DRY" PROHIBITION PROVISION.

The "bone dry" provision of the postal bill is the most far reaching prohibition legislation ever enacted by the Federal Government—in fact it is the first direct legislation by the Government prohibiting the liquor traffic.

At least fourteen states, which have prohibition laws but do not prohibit the importation of certain quantities of liquor for personal use, will be made "bone dry" by the new law, which prohibits the importation of liquor into any state that prohibits its manufacture and sale.

CONTROL OF NEXT HOUSE IN DISPUTE

Death of Conry May Give Republicans Lead—Democrats Have Hope.

By Associated Press Dispatch.

Washington, March 3. — Congress adjourns tomorrow with the control of the next house still in dispute.

As a result of the death of Representative Conry, of New York, the Republicans appear to have the lead. They now have 215 votes assured. It is conceded, while the Democrats have only 214.

No successor to Mr. Conry will be elected before November, it is believed. Five members of the incoming Congress are classed as "independents."

Hence, if a special session of Congress is called before next December, it would appear the Republicans will have the advantage.

As a majority of the membership of the House is necessary to the selection of a speaker, however, the Democrats are not without hope.

RESERVATION MADE ON 9:33 B. & O. TRAIN

Definite announcement was made late Saturday afternoon that Company M had made reservation on the B. & O. train No. 39, arriving here Sunday morning at 9:33 and that the baggage would follow on the evening train.

This is regarded as conclusive evidence that the troops will arrive here on the morning train.

OS BRIGGS BUYS THE PROCTOR FARM

One of the largest land sales at public auction held in this county in recent years was that of the Proctor farm of 366 acres, Saturday afternoon and which was purchased by Os Briggs for the sum of \$110.75 per acre. This was about \$1 per acre higher than the appraised value of the land.

The estate, located one mile north of this city, attracted a number of prospective buyers, and bidding for the most part was spirited.

MRS. D. DAVIDSON DIES AT HOME OF SON

COMPANY M EXPECTED HOME ON B. & O. TRAIN AT 9:33 A. M. SUNDAY

Hang out the Flag!

Company M, Fourth Regiment, Ohio Infantry, will be home on the 9:33 B. & O. train Sunday morning.

This announcement has been received by The Herald from officers of the Company, and unless their schedule is seriously disarranged the troops will be on the morning train instead of the afternoon train, and a large crowd of patriotic citizens is expected to assemble and greet the home coming soldiers, who were willing to go out into unknown dangers and give up their lives if necessary to protect the flag.

Company M leaves Detroit at eight o'clock tonight, according to a telegram to The Herald Saturday morning, which says:

"Leave Saturday night at eight. Arrive at Columbus early Sunday morning over Toledo & Ohio Central. Leave Columbus on first train."

Another telegram from First Lieutenant Billie E. Paul, to Mr. Horace C. Ireland, announces definitely that the Company will be home on the B. & O. train arriving here at 9:33 Sunday morning.

The Washington Band will head the big delegation of Washington citizens

who will welcome the returning troops. The band will assemble on the main streets at or before nine o'clock and render patriotic airs until near train time, when the march to the Union Station will be made.

A large delegation of the Daughters of the American Revolution will meet the train and present a silk flag to Captain Hardway and his gallant men.

Washingtonians will behold an entirely different type of men from those who left here eight months ago yesterday. Each man will be a seasoned soldier, with the snap to his step and alert attitude which characterizes the well drilled man.

The touching scenes attending the departure of Company M on the second of last July when they entrained at the Union Station, are still fresh in the minds of those who witnessed them, and the reception Sunday morning will be just as joyous as the farewell was sad.

All citizens are urged to display the American flag throughout the day, and to carry flags in greeting the returning soldiers.

Following the reception at the station, Company M will march to the Armory on East Court street and there, after looking after the property, will disband and the men will return to their homes and loved ones.

Careless Use of English

The sanction of usage, the introduction of current slang, often singularly expressive, and the incessant demands upon time which forbids to the many much needed study, combine frequently in "murder of the King's English."

With all of today's advantages in general education, it is very doubtful if there is anything like a corresponding increase in pure English.

The story is told that forty members of the French Academy once undertook to define the word crab and hit upon this, which they deemed quite satisfactory: Crab—A small red fish, which walks backward."

Curver, when interrogated, concerning this definition, responded, with pertinent sarcasm: "Perfect, only I will make one small observation in natural history. The crab is not a fish; is not red, and does not walk backward. With these exceptions your definition is admirable."

This is a forceful illustration of easily made definitions, liable to similar proof of incorrectness.

Even people who have had unusual educational advantages are apt to fall into careless habits in the use of English, especially if often hearing words incorrectly used.

The proper use of banister, baluster and balustrade, causes much confusion. The first two are synonymous, but banister should be discarded since it is a corruption in language for the baluster. If we speak correctly we are forced to speak of the staircase rail as balustrade, yet how few do, for banister in conversation has superseded either of the other two words.

"Come and see me," when we wish a friend to make us a visit, is common parlance. We should say: "Come to see me," using the complementary infinitive.

These are but two of the every-day examples in which the persecution of the King's English goes on. When it comes to the matter of pronunciation—that is a study all by itself—and a very provoking study for authorities disagree and just as one pronunciation is found correct a later edition gives preference to another.

Cuba's Spree

Within the past few days Uncle Sam's model child Cuba, as if cloyed with too much good behavior, has broken madly into first page prominence with a nasty insurrection which threatens the stability of its patiently built government.

Reverting to primordial methods of choosing a ruler, it has sought to compose an electoral dispute by civil war, thereby heedlessly allowing itself to be drawn into a state whose consequences are only too well evidenced by our testy neighbor, Mexico.

But just here Uncle Sam has something to say. Secretary Lansing has called upon Cuba to calm herself and settle her controversy with legal rather than with military means.

The law of the insular republic provides that its national election disputes be settled by a Central Committee, from the decision of which there may be an appeal to the Supreme Court of Cuba. Should the dispute then remain unsettled, the matter may be referred to the popular electorate.

This legal recourse is very much on the order of that of the United States, whose electoral commission settled the Hayes-Tilden vote controversy and whose existence kept the nation calm in the Cleveland-Blaine and Hughes-Wilson presidential races.

So Cuba has been warned to use the instruments civilization has given her. It must be clearly pointed out that no government set up by an armed revolution can hope for recognition. And refusal by the United States to recognize a successful revolutionary government on the island would necessarily be followed by intervention and occupation.

The Cubans must not forget this. There is a way out of this trouble, as there was for the people of this country, and if they value their independence they should show themselves worthy of it.

Extravagant Spending

The government's figures on imports during the last year show that Americans are spending money lavishly for luxuries. This tendency was marked in 1915 but almost nothing compared to 1916.

The increase in precious stones was from \$26,521,000 to \$51,590,000; in ivory from \$1,368,000 to \$2,681,000, and other articles that are classed as luxuries in the same proportion.

These are things that people can live without—the first things to be cut out when money is scarce and demands economy.

The fact that these luxuries have been purchased so extravagantly is the positive proof of the vast amount of money made by Americans during the past year.

That is the American weakness—a wasteful spending in flush times—and these customs figures prove that, despite the high cost of living, there have remained huge sums for spending.

There is no surity that because money is so easy now it will be the same tomorrow. While there is nothing to condemn in the desire for the luxuries the danger is that present extravagance will do away with thrift and foresight and the day of readjustment, always succeeding such an economic situation, will find the people unprepared.

Poetry For Today

MY LITTLE IRISH ROSE
Green are the fields of Erin, and soft
the mossy lea,
An' high the shamrock-covered hills
that overlook the sea;
An' dear to me my native town, by
which the Shannon flows,
Where on the green dwells my colleen
my little Irish rose.

O far away in Leitrim town, beyond
the tossin' tide,
Within a little cabin white my darling
doth abide.
O she is fairer far, I wot, than any
flower that blows—
A jewel rare, beyond compare, my
little Irish rose.

Sure, when I left the dear old isle,
an' sailed the heavin' main,
To leave my weepin' lass behind it
filled my heart with pain;
An' well I mind the words I spoke to
soothe away her woes—
"Dear heart, to you I will prove true,
my little Irish rose."

O city dames are wondrous fair, but
mighty full of tricks;
They'd steal away a fellow's heart,
then leave him in a fix;
But I was proof 'gainst all their wiles
and tipped them 'neath the nose,
An' whisper "Swate, ye ne'er could
bate my little Irish rose."

Now bhoys, I'm goin' home again to
the dear old countree,
With plenty in my pockets, bhoys, I'm
Jocund as can be;
The good old ship will bear me soon
where the wide Atlantic flows,
To Erin's shore, to greet once more
my little Irish rose.

Bedad, my bhoys, won't there be fun
upon my bridal day!
From far an' near the girls will come,
deck'd in their best array,
We'll dance the tango an' the jig,
while soft music flows,
An' the queen will be of that company
my little Irish rose.

—William Noon.

ELEVENTH HOUR JAM

By Associated Press Dispatch.

Washington, March 3. — The armed neutrality bill was running a neck and neck race with time in Congress today.

Democratic leaders were aiming to get it through somehow before the session dies at noon tomorrow, but were not entirely sure of the position of its opposition.

In the Senate, where the bill was being debated, there were some long or position speeches heard.

Although a great majority of the Republicans urge its passage, the leaders were not sure where the last moment would find Senator LaFollette and the strain was drawn out by Senator Stone's offering of amendments which are disagreeable to the President.

It was evident on all hands that the situation had forced other legislation into an eleventh hour jam, where much of it would be sacrificed.

PENNSY MAKING GOOD HEADWAY

Material progress in expediting the movement of freight over the Pennsylvania Railroad System, between the Middle West and eastern points, is being effected through the work of the newly established Pennsylvania System Joint Embargo Committee, which has its headquarters at Pittsburgh.

This Committee was created at the direction of the Executive Officers, following conferences held at Philadelphia and Pittsburgh, to devise means for more satisfactorily handling freight affected by embargoes, between the Lines East and West. Its purpose is to serve the public more fully by making, as promptly as possible, modifications of embargoes where transportation conditions and the ability of consignees to remove freight from the cars promptly upon arrival, permit such exceptions to be made.

CLEVELAND IS AFTER BIG CONVENTIONS

By Associated Press Dispatch.

Cleveland, O., March 3.—To put Cleveland prominently forward as a city of national conventions, a campaign to raise \$75,000 within a year has been mapped out. With the completion of the new city auditorium and convention hall, plans for which have been approved and upon which work will start this spring, Cleveland will be in as good shape for handling large conventions as any city in the country.

The plans for the new building call for a total seating capacity of 15,000. Committee rooms are to be provided so conventions of from fifty to 15,000 attendance can be cared for.

LONDON LOSES TO WASHINGTON IN SNAPPY GAME

Another Easy Victory Scored by Washington's Fast Five—Bloomington Defeats Freshmen in Fast Game.

In two of the snappiest games ever played on the local gym floor Washington broke even, Friday night, winning the main event.

In the preliminary, the Freshmen ran up against a hard proposition and although playing gamely were never able to overtake the fast Bloomington five. Andrews starred for the Burg boys, registering six field goals during the game. Willis led in the basket shooting for the Freshman with four goals. Score 29-16.

Lineups:
Bloomington—Laughlin, rf; Pursell, lf; Andrews, c; Bloomer, rg; Bloomer W. lg.
Washington—Weaver, rf; Wilson, lf; Rief, c; Willis, rg; Smith, lg.
Field goals—Laughlin 1; Pursell 1; Andrews 6; Weaver 1; Wilson 1; Rief 1; Willis 4.
Foul goals—Pursell 3; Andrews 1; Weaver 1; Wilson 1.
Officials, Myers and Andrews.
Time 15 minutes.

In the main event of the evening, Washington very handily defeated their opponents from London making a total of nine games won during the season.

During the first ten minutes of play London was unable to secure a point while Washington was scoring six. Several times in the first half the locals were threatened but never overtaken. Washington's guards did excellent work in this half, only two field goals being scored on them and incidentally the two guards scored two baskets in the first half. Score first half, 11-6.

In the second half, Washington showed some of her team work. On three successive plays baskets were scored. Slagle led scoring in this half with four field goals. Noland and Cornwell each scored two for London. Gregg although not leading in the basket shooting was very successful on the two long shots he tried.

Both teams showed good team work at times but Washington's team work was twice as fast and this accounted for the way the score stood at the end of the half.

Only one more game is on the schedule for this year, that with Hillsboro on March 16.

Lineups and summary:
London—Evans, rf; Noland, lf; Cornwell, c; Boothe, rg; Bartlette, lg; W. H. S.—Gregg, rf; Slagle, lf; Willis, c; Strevey, rg; Burnett, lg.

ART EXHIBIT TO BE HELD OVER SUNDAY

The Elson Art Exhibit has drawn many visitors to the high school building the past three days and has also been viewed with immense benefit by the pupils of both high school and grades.

The original intention was to close at nine o'clock Saturday night, but the exhibit is such an exceptionally complete one that the school management has decided to hold it over until Monday morning.

On Sunday it will be thrown open to the public but no admission charged. A silver offering will be accepted if visitors wish to leave one but the purpose is to give the town the benefit of seeing these fine copies of famous paintings and the offering is entirely optional.

It is a good thing for the town to see what the schools are doing. Catalogues can be had if desired.

VIEWS OF OTHERS

To the Editor of the Herald.

I wonder how many readers of your valued paper have stopped to seriously consider the request of Ohio railroads for an increase of one-half cent per mile in passenger fares?

I know the first tendency of the average person is to oppose the request of a railroad without investigating the merits of such request.

Upon investigation I have found that new bills submitted to the present session of the General Assembly would, if enacted into laws, force Ohio railroads, many of them already burdened with debt, to expend outright over \$7,500,000 in order to meet the requirements, and thereafter entail an annual expense of \$1,500,000 to maintain.

Before the day of the automobile, or before the auto came into prominence, railroads were receiving 3c for passenger fare but in 1907 one third of this was cut off by the law-makers, and for several years past a great many of the railroads operating in the state have been running passenger trains at a dead loss of from one to 10 cents per mile.

A little figuring will convince one of the great losses on passenger traffic, and as the roads are forced to operate the passenger trains, they have done so, keeping the trains running by paying the deficit from freight and other receipts.

The above is not a pipe dream, but conformed from reliable statistics dealing with the passenger traffic of Ohio railroads.

And during the past year or two prices have taken a great upward bound until the roads are forced to enormous additional expense for labor, steel rails, rolling stock, and in fact everything connected with railroading. This eats still deeper into the receipts from other departments until the outlook is really a serious problem for many of the roads.

Yours respectfully,

FAIR PLAY.

OHIO ADULT BIBLE CLASS CONVENTION

Great interest is being manifested throughout the State in the coming State Adult Bible Class Convention to be held at Lancaster March 27th and 28th.

Every Protestant Church in Lancaster is helping in preparatory plans. Their homes are to be thrown open to the hundreds of delegates that are being appointed by the Adult Classes of the State. Every Class is entitled to two delegates.

Interesting features are being provided by the program committee. Mr. Watkin Davis of Philadelphia, the song leader, is to play old hymns on a one string fiddle of his own manufacture. Miss Margaret L. Matheay, 9 years old, is to whistle for the Convention. She whistles sacred tunes with rare sweetness and captivates her audience. Among the special leaders who have been secured are: Dr. John G. Benson of Detroit, one of America's greatest Evangelistic and Social Service leaders. He has been called to Illinois for the third consecutive year to speak to their Sunday School Workers.

Hon. William J. Bryan is expected to deliver an address during the conference.

Mr. W. C. Pearce, International Adult Bible Class Superintendent who has done more than any other leader to make the Adult Movement sweep the country like a prairie fire.

Mr. B. S. Forsythe, Adult Superintendent of Pennsylvania the leading Adult Bible Class State in America.

SHIVELY NAMED TO SUPERINTEND

C. S. Shively, former teacher and athletic coach in the Washington schools, has been reappointed superintendent of the Springfield playground for the coming season, having filled that position very satisfactorily last season.

The appointment was made by City Manager Charles E. Ashburner. In connection with the appointment of Mr. Shively, the Springfield Sun says: "The playgrounds of the city last season were exceptionally popular. The attendance was large at the nine grounds operated and it is expected that the attendance records this year will be even larger. The ground in the East End, if established, will add materially to the number of children benefited, it is thought."

CROP PROSPECTS FOR THE SEASON BY U. S. BUREAU

Increased Acreage Is Indicated, With Wheat Prospects Fair—More Live Stock on Hands Than Year Ago—Some Interesting Figures.

The following excerpts from the monthly report of the United States Bureau of Agriculture will be of particular interest at the present time as it deals with the grain and meat supply of the nation:

CROP PROSPECTS

"I am not a prophet and can not furnish any guarantee for the future. There are certain things, however, I do know. The farmers, governed as they are by ordinary motives, in response to the present level of prices have in certain directions shown a definite purpose to increase their acreage. Winter wheat was sown in the fall. The reports reveal that the total acreage was 49,090,000. This is nearly 900,000 more than the amount planted the preceding fall. Much of the latter however, was winter killed so that the planting this fall was 5,260,000 acres more than harvested last summer. Spring wheat has not been planted. In 1915 the acreage was 19,445,000 acres. The average acreage for five years is 18,800,000. It would be singular if this did not increase. But taking the average for five years and adding it to the winter wheat acreage, we have approximately 59,000,000 acres, or practically the same as the record acreage of 1915. What the yield per acre may be will depend largely on the weather conditions. The average of the six lowest yields per acre since 1894 was 12.5 bushels. This would give us 737,000,000 bushels of wheat. The average yield for five years down to the record crop year of 1915 was 14.9 bushels. This would give us 879,000,000 bushels of wheat. The average for five years including the record crop year was 15.5 bushels. This would give us 914,000,000 bushels. A yield equal to that of 1914 of 16.6 bushels would give us 979,000,000 bushels, while a yield equal to that of the record crop year would give us 1,000,000,000.

"The two food products which reveal a marked decrease last year were wheat and Irish potatoes. It is evident that the public has failed to look at all the facts involved.

THE MEAT SUPPLY

"A further word should be said about the tendency of the meat supply to increase. While following the outbreak of the war, there was a considerable increase in exports of meats, amounting in 1916 to 1,500,000,000 pounds, the domestic production in 1916 was 3,000,000,000 pounds greater than in 1914, and tendency is still upward. Figures recently submitted show that the number of cattle on January 1, 1917, was 1,937,000 greater than on Jan. 1, 1916 and that the milk cows had increased in the same period 669,999. A very considerable development in live stock is taking place in the South.

BUICK

When Better Automobiles Are Built, BUICK Will Build Them.

Seeing is believing, and the show last week convinced car buyers that the BUICK Valve-in-Head is in a class alone.

The Buick is out selling all other high grade cars. This year it will dominate in a larger way than ever.

No other motor shows such performances or endurance. In speed, power, comfort and economy, it excels every rival.

The Buick can be seen in all styles at our sales rooms on East Court Street.

"Betty" is said to be a sparkling piece, which gives the star ample opportunity to display his especial brand of humor. The supporting company also is composed of clever people, one of the most important members being young Joseph Santley.

The music is charming, and the stage settings and costumes beyond criticism.

Mail orders for seats for "Betty" are being received now at the Hartman, and will be filled promptly in order of their receipt, and returned when accompanied by a stamped, self addressed envelope and remittance.

FULL SPEED AHEAD FOR LEGISLATURE

Grand Rush Coming
as Adjournment
Draws Near—Cap-
ital City Notes.

By Associated Press Dispatch.

Columbus, O., March 3.—With on-
ly four legislative days remaining in
which to act on bills before the re-
cess March 8, the General Assembly
will work under high pressure next
week.

The emergency tax bill to provide
the necessary machinery for listing
property this year, the Bliss high-
way bill, reorganizing the state high-
way department, the governor's bud-
get, providing appropriations for the
next two years and relief for cities in
financial distress, are important mea-
sures yet to be considered.

Mayors and other representatives
of municipalities are expected to de-
scend upon the general assembly next
week demanding that they be given
some financial relief. Officials of
school districts also suffering from
limitations of the Smith one per cent
law are demanding relief. Democrats
having failed to produce any measure
that would meet with approval of the
majority, Republican Floor Leader
Frank Reighard in the House and
Senator Galbreath, Republican of Col-
umbiana county have brought forth
bills proposing relief for cities.

Galbreath's bill would permit tax
levies by vote of the people outside
the limitations of the Smith law for
the purpose of paying off old indebt-
edness created prior to March 1, 1917.
Reighard's bill also permits removal
of sinking fund and interest charges
from the limitation of the Smith law
upon vote of the people in order that
municipalities may pay off old debts
and seek to check further bond issu-
ing power of cities by limiting the
amount councils may issue to one-half
of one per cent of the total tax dupli-
cate. Under the present Longworth
act the limit is one per cent of the
total tax duplicate. It would not lim-
it the amount of bonds people them-
selves might by a vote, authorize.

If amendments to the present tax
law reported out by the special bi-
partisan joint committee on taxation
are written into law, the householder
will have the right to \$300 exemption
on his personal property instead of
\$100 when he makes his tax return
next month. This will eliminate
thousands of returns from small
householders on personal property.

The committee has codified all the
laws exempting property and seeks
to make plain just what class of prop-
erty is exempt and what is not.

The following are exempt: Public
bonds outstanding September 31, 1912,
when the new constitution was adopt-
ed, burial grounds not for profit, pub-
lic school houses, houses used exclu-
sively for public worship, institutions
used exclusively for charitable pur-
poses and public property used ex-
clusively for any public purpose.

The Davis bill granting increase in
pay to county commissioners, making
the minimum \$1200 instead of \$900 a
year and the maximum \$6000 instead
of \$4000 having passed the Senate is
expected to pass the House next week.

A joint committee of Representa-
tives Stump of Pickaway, Fleming of
Cuyahoga and Federman of Hamilton
and Senators Miller of Licking, Ben-
edict of Toledo and Dr. Murrell of
Clinton county, has been appointed to
visit Cadiz and investigate the re-
port of a former commission which
recommended the location of the new
State Normal School for Eastern Ohio
at this point. If the committee finds
there is no reason why this report
should not be adopted it will recom-
mend an appropriation for the build-
ing of the school. The former com-
mission made a recommendation of the
Cadiz site to former Governor
Willis but because of opposition com-
ing from residents of New Philadel-
phia, Cambridge and other Eastern
Ohio towns seeking the school Willis
did not proceed to carry out the re-
commendations of the commission.

City and village councils in cities
and towns of Ohio other than those
having their own charters will take
away from boards of health the pow-
er to fix salaries of health officers and
other health department employees if

"Bell Hops" Drill to Be Able to Answer Country's Call of "Front"

"BELL-HOPS" DRILLING ON THE ROOF. 6

If the "bell hops" in your hotel
click their heels together, salute and
stand at attention when they bring
you ice water don't think you are see-
ing things or that Christmas is com-
ing. Of course they will accept, a little
reward for service well rendered, for
the high cost of living is bothering
even bellhops these days, but they're
not, giving you the military stuff for

the sake of grabbing off a larger tip.
No, indeed. They're learning to be-
come soldiers. That's the answer to
the heel clicking, salute, attention
business. Plans have been made to
drill the bellhops in the big cities.
One large New York hotel furnished
a contingent of nearly 300, and some
of them may be seen here drilling on
the roof.

The governor signs the Billingsen bill
passed by the House and Senate.

The House yesterday passed the
Mulehay bill making many correc-
tions in the Cass Highway law. The
amendments were drafted by the
Food Roads federation and state high-
way commission, and was amended
on the floor of the house upon motion
of Representative Reighard, providing
for use of prison made brick on state
and intercounty highways. The bill
passed the house unanimously. Sena-
tor White of Erie county is author
of the same bill which will come up
for passage in the Senate next week.

The special emergency tax bill
which passed the Senate this week
will be up for passage in the House
at 2 p. m. next Tuesday.

WOULD ESCAPE THE MEASLES

(By American Press)

Columbus, March 3.—An epidemic
of measles is causing the almost to-
tal evacuation of Columbus barracks.
The evacuation probably will be com-
plete by the middle of next week.
Two companies and the band have
been sent to Fort Thomas, Ky., and
two companies have been dispatched
to Fort Oglethorpe, Ga. Five hun-
dred recruits will be disposed of by
assignment to other sections of the
country. About 1,600 men remain at
the barracks. In the next three or four
days an effort will be made to send
every recruit away.

CONRY DIES IN WASHINGTON

Washington, March 3.—Representa-
tive Michael F. Conry of New York
city, a Democratic member of con-
gress for four terms and re-elected
for a fifth, died at a hospital here
after a long illness from kidney trou-
ble. He was forty-seven years old.
The death of Mr. Conry may have an
important effect upon the political
complexion of the house in the Sixty
fifth congress. The Democrats an-
nounced elected 215 members
each, and there are five independents
upon whom depends which party
shall organize the next house.
